

INFOCOMM 2002, May 9th-11th, 2002

DSR™ Digital Film Server with MPEG2 4:2:2 decoder Successfully Demonstrated in INFOCOMM CHINA EXHIBITION

May 9th-11th,2002, GDC Tech. has introduced a new MPEG2 4:2:2 DSR™ Digital Film Server with high bit rate decoder to Shanghai InfoComm China Exhibition at Christie booth. Affiliated to InfoComm International, the leading audiovisual communications showcase in the world, InfoComm China showcases the communication industry's latest technological developments, innovations and applications in audio, video, presentation, projection, multimedia, computer and interactive conferencing. This premier event is a unique meeting place for local businesses and professionals to source for their audiovisual communications needs in China. It attracted lots of well known companies' participation, such as Barco, Christie Digital Systems, Creston, Da-Lite Screen Company, Draper Inc, Epson, Extron Electronics, Fujitsu General, InFocus, Mitsubishi, NEC, Sanyo, Sony and Toshiba, etc. Global Digital Creation Technology Ltd.'s DSR™ Digital Film Server attracted many experts in this field with its easy-to-use LCD touch screen, consistent high-resolution image and successful experience in operating China's first digital cinema.
