

Aug. 25-29,2003----Beijing, China

## World Premier for the CineCanvas(TM) Image Management using a 2K DLP Cinema(TM) Projector and a 2K DSR(TM) Digital Film Server

Beijing, China, August 28, 2003 — In conjunction with Texas Instruments, GDC Technology demonstrated at BIRTV'2003 Digital Film Forum a GDC Technology's 2K DSR(TM) Digital Film Server that delivers CineCanvas(TM) subtitle for a 2K DLP Cinema(TM) projector in 3 different data formats, namely Chinese, Thai and Japanese. China Film Group also applauded GDC Technology's Server reliability and its physical media delivery technology using cost-effective and reliable data cartridges for more than one year of screenings in China digital cinemas.

GDC Technology is also pleased to announce its newly formed partnership with China Film Equipment Corporation (CFEC) to market its DSR(TM) Digital Film Agile Encoder and Digital Film Server in China. As of August 28, 2003 there are more than 50 digital/electronic cinemas installed and more than 20 full-length feature films released worldwide using DSR(TM) Digital Film Agile Encoder. DSR(TM) Digital Film Servers are also equipped with standard DVB-ASI interface for real-time streaming and store-forward of multiple HDTV channels.
